## Simmons Kids Recalls Crib Mattresses Due to Entrapment Hazard

WASHINGTON, D.C. – The U.S. Consumer Product Safety Commission, in cooperation with the firm named below, today announced a voluntary recall of the following consumer product. Consumers should stop using recalled products immediately unless otherwise instructed. (To access color photos of the following recalled products, see CPSC's Web site at [www.cpsc.gov](http://www.cpsc.gov).)

**Name of product:** Simmons Kids Crib Mattresses

**Units:** About 20,000

**Manufacturer:** Simmons Kids, a division of The Simmons Manufacturing Co., LLC of Atlanta, Ga.

**Hazard:** Some of the crib mattresses can measure smaller than the 27 ¼ inch minimum width requirement for cribs, creating a gap between the mattress and crib side rails, posing an entrapment hazard to infants.

**Incidents/Injuries:** Simmons Kids and CPSC have received one report of a 6-month old baby becoming wedged between the mattress and crib's frame. The baby was removed from the crib by the parent without injury.

**Description:** The recalled mattresses involve open coil crib mattresses manufactured between July 1, 2006 and March 23, 2008 with a color label attached to the top or side of the mattress that has the following model names:

Pottery Barn Kids by Simmons Kids Lullaby

Simmons Kids Slumber Time Evening Star Luxury Firm

Simmons Kids Baby Mattress Series 400

Simmons Kids Baby Mattress 234 Coil Count

The crib mattresses also have a law tag that is sewn into the edge of the mattress. The law tag has the date of manufacture and in most cases will contain one of the following model numbers:

H59044.15.0014, M59082.15.0002, M59027.15.0002 or M59065.15.0006.

Pocketed Coils® and Simmons Kids or Simmons Juvenile Products crib mattresses manufactured before July 1, 2006 or after March 23, 2008 are not included in the recall.

**Sold at:** Pottery Barn Kids and nursery furniture retailers from July 2006 through May 2008 for between \$100 and \$150.

**Manufactured in:** USA

**Remedy:** Consumers should measure the width of their mattress using a reliable measuring device, such as a yard stick or tape measure, by removing all outer coverings, placing mattress on floor and measuring the width near the middle, from the outside edge of the tape binding to the opposite side of the mattress. Consumers should immediately stop using the mattress if it measures less than 27 ¼ inches and contact Simmons Kids to receive a free replacement mattress.

**Consumer Contact:** For additional information, contact Simmons Kids at (800) 810-8611 between 8:30 a.m. and 5 p.m. ET, Monday through Thursday, and between 8:30 a.m. and 2:30 p.m. ET, on Friday or visit the firm's Web site at [www.simmonskids.com](http://www.simmonskids.com).

The U.S. Consumer Product Safety Commission is charged with protecting the public from unreasonable risks of serious injury or death from more than 15,000 types of consumer products under the agency's jurisdiction. Deaths, injuries and property damage from consumer product incidents cost the nation more than \$800 billion annually. The CPSC is committed to protecting consumers and families from products that pose a fire, electrical, chemical, or mechanical hazard. The CPSC's work to ensure the safety of consumer products - such as toys, cribs, power tools, cigarette lighters, and household chemicals - contributed significantly to the decline in the rate of deaths and injuries associated with consumer products over the past 30 years.

To report a dangerous product or a product-related injury, call CPSC's hotline at (800) 638-2772 or CPSC's teletypewriter at (800) 638-8270 or visit CPSC's Web site at [www.cpsc.gov/talk.html](http://www.cpsc.gov/talk.html). Consumers can obtain this release and recall information at CPSC's Web site at [www.cpsc.gov](http://www.cpsc.gov).
